1. The reference cited but not considered by the Examiner was not considered because it lacks a publication date.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 2 and 11 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Creek ('135). See Figure 1A, 1B and column 2, lines 40-58. Layer 14 is compressible and has interior voids, and layers 17 and 18 may be considered first and second layers of uniform thickness. The first and second layers are secured together with seam 27.

4. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Buskirk. See column 2, lines 21-26 and column 3, line 73 through column 4, line 25. The adhesive layers that bind the outer layers to the coils are considered the means for affixing the first layer and second layer together while securing the inserts between.

5. Claims 5-10 and 12-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1772

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
